### INVENTION PROJECT (C1 and C3)

1. Introduction to the Invention	
<b>Name of the invention</b> (ex: Telephone, Light Bulb, Internet)	
Include <b>pictures, diagrams, or videos</b> to show the invention, how it works, or its evolution.  A <b>timeline</b> of the invention's history could help visualize its development over time.	
<b>Invention's inventor(s)</b> (Who created it?  When?  Where?)  <b>Sources:</b>	

2. Background Information	
<b>Why was the invention created?</b> (What problem was it solving?)	
<b>What inspired the inventor(s)?</b> (Was there a specific event or need that led to its creation?)	

3. Description of the Invention	
<b>What does the invention do?</b> (Explain the basic function)	
<b>How does it work?</b> (Give a simple explanation of how the invention functions, focusing on key parts or processes)	

4. Impact of the Invention	
<b>How did the invention change the world?</b> (What problems did it solve? How did it improve people's lives?)	
<b>Has it affected society in any specific ways?</b> (Think about changes in daily life, work, communication, etc.)	

5. The Evolution of the Invention	
<b>Has the invention changed over time?</b> (Did it get improved or modified? How?)	
<b>What are some modern versions of the invention?</b>	

6. Interesting Facts	
Share <b>fun or surprising facts</b> about the invention, its inventor, or its journey to becoming famous.	

7.Conclusion	
<b>Why is this invention important today?</b> (Does it still have a significant role in our lives?)	
<b>What do you think the future holds for this invention?</b> (Can it still improve, or has it reached its full potential?)	

8. Personal Reflection	
<b>Do you use this invention in your daily life?</b> (Explain how or why not)	
<b>What would the world be like without this invention?</b> (Think critically about its importance)	

#### Tips for the Presentation:

- **Clear organization:** Structure your PowerPoint logically (e.g., one slide for each section).
- **Simple language:** Use simple and clear language
- **Engage the audience:** Add questions or a fun fact to engage the listeners.
- **Practice:** Practice speaking clearly and confidently, without reading too much from the slides.
